

2.

The screenshot displays a web dashboard with a green header and a dark navigation bar. The navigation bar includes links for Dashboards, Scans, Assets, Resilience, SecInfo, Configuration, Administration, and Help. A user profile icon is visible in the top right corner. Below the navigation bar, there is a search filter and a sidebar menu with options like 'New Task' and 'New Container Task'. The main content area features four charts: 'Tasks by Severity Class (Total: 1)' showing a single 'N/A' category; 'Tasks with most High Results per Host' showing a line graph; 'Tasks by Status (Total: 1)' showing a single 'Requested' category; and another 'Tasks by Status (Total: 1)' chart also showing 'Requested'. Below the charts is a table with columns for Name, Status, Reports, Last Report, Severity, Trend, and Actions. The table contains one row with the IP address 192.168.31.100, a 'Requested' status, and 1 report. The interface also includes pagination controls and a filter application button.
