

4.

- Sharing → Windows Shares SMB → ADD

The screenshot shows the TrueNAS web interface for managing Samba shares. The left sidebar contains a menu with 'Storage', 'Directory Services', 'Sharing', 'Services', 'Plugins', 'Jails', and 'Reporting'. The 'Sharing' section is expanded, showing 'Apple Shares (AFP)', 'Block Shares (iSCSI)', 'Unix Shares (NFS)', 'WebDAV Shares', and 'Windows Shares (SMB)'. The main content area is titled 'Samba' and features a search bar 'Filter Samba', a 'COLUMNS' dropdown, and an 'ADD' button. Below these is a table with columns 'Name', 'Path', 'Description', and 'Enabled'. The table currently displays 'No data to display'.

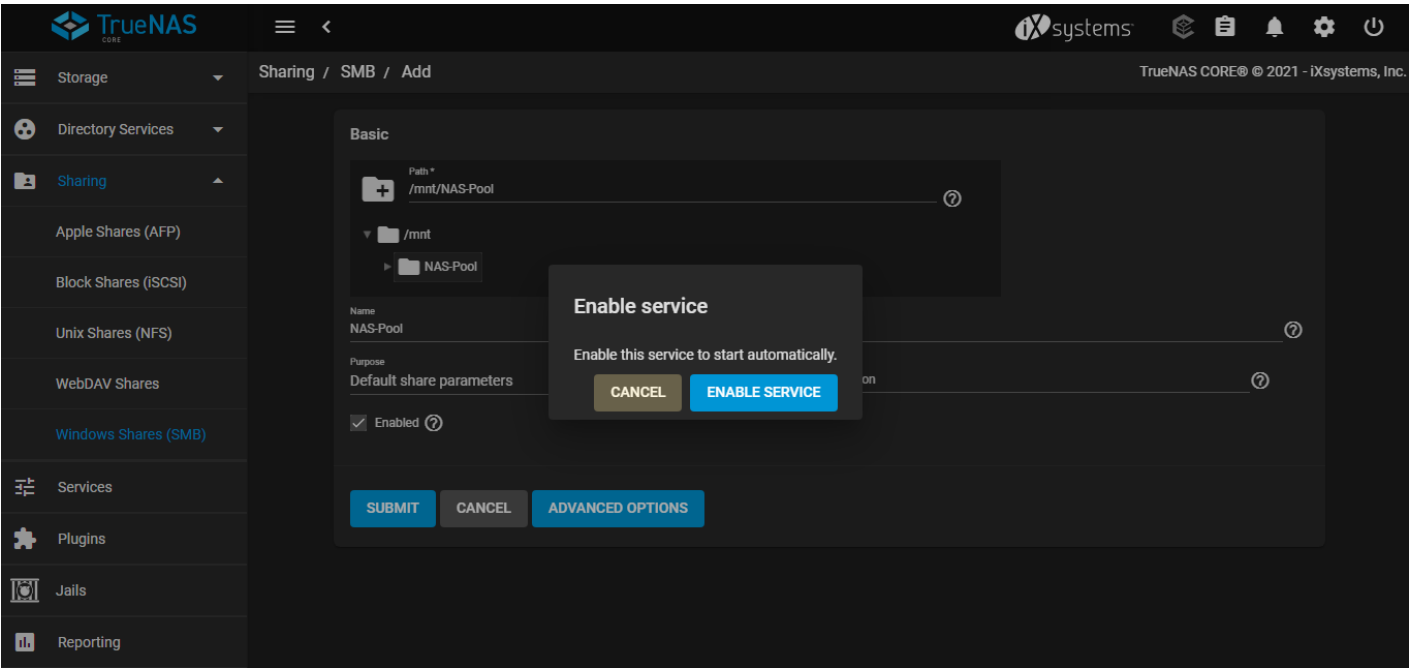

- Pool                      Enable                      SUBMIT

The screenshot shows the 'Add' form for creating a new Samba share in TrueNAS. The left sidebar is the same as the previous screenshot. The main content area is titled 'Sharing / SMB / Add'. The form is divided into a 'Basic' section and an 'Advanced Options' section. The 'Basic' section includes a 'Path' field with a file browser icon, a 'Name' field, a 'Purpose' dropdown, a 'Description' field, and a checked 'Enabled' checkbox. The 'Advanced Options' section is currently collapsed. At the bottom of the form are three buttons: 'SUBMIT', 'CANCEL', and 'ADVANCED OPTIONS'.
