New Backup Job
Backup Mode
Choose what data you want to back up from this computer.
Name
Backup Mode
Volumes
Destination
Local Storage
Schedule
Summary
Entire computer (recommended)
Back up your entire computer image for fast recovery on any level. Deleted, temporary and page files are automatically excluded from the image to reduce the backup size.
Include external USB drives
Volume level backup
Back up images of selected volumes, for example only data volumes. Deleted, temporary and page files are automatically excluded from the image to reduce the backup size.
File level backup (slower)
Back up individual files and folders by mask. This mode produces an image-based backup with only selected files included in the image.
